PLUGS AND CONNECTORS INDUSTRIAL AND COMMERCIAL VEHICLES

www.mecdiesel.it

webshop.mecdiesel.it

Компанията гарантира отлично обслужване с възможно най-бързи доставки, благодарение на близостта си до своите клиенти.

Специализирана в двигатели и резервните части за тях със собствената си марка Mec-Diesel, компанията разшири асортимента си с продукти и на други производители през годините. Широката гама позволява на клиента да избере висококачествена резервна част на най-добра цена.

Следвайки тази философия, Blinken беше създадена през 2018 г. – нова собствена търговска марка, специализирана в горивна система, моторен мениджмънт, електрически компоненти, EGR и др. оселиращи елементи, запалителна система, ротиращи агрегати, охладителна система и сензори.

С цел да предложи още по-широка гама продукти, Mec-Diesel придоби Erar Srl през 2019 г. – дистрибутор, специализиран в резервни части за лекотоварни, тежкотоварни и автомобили за пътнически транспорт.

Под марката Erar, компанията доставя нова продуктова линия: части от осветителната уредба, спирачни и въздушни системи, едрогабаритни и части по окачването.

С асортимент от над 40 000 позиции, компанията предлага резервни части за камиони, бусове, автобуси, селскостопански и строителни машини, както и за най-разпространените марки леки автомобили.

Основният фокус в бизнеса е поставен върху търговията с двигатели и резервни части за тях, като компанията има лидерски позиции при продуктите с приложение при италианските марки Iveco и Fiat.
